

May 2019 Muskie Inc. Newsletter

The monthly meeting of the Between The Lakes Chapter of Muskies Inc. will be Thursday May 9th at Bummys Haus in Howards Grove. The meeting will start early at 6:00 because we have a speaker. Addie Dutton, who is the fish biologist for our area. Addie has finished analyzing all the data from her fyke netting last year On Random & Elkhart Lake.

Our annual banquet was a complete success. It looks like all the bills & donations were paid, we ended up making around \$13,000. This couldn't have happened without the work of lot's of our members & generous donors.

The fishing league is getting ready to start, The 1st one is May 16th on Random Lake. Damian Nevers & his dad will be putting it together & we should be getting an email next week about the pairings. If you know anyone who would like to fish it, let them know. You don't have to be a member to fish in it & a wealth of knowledge can be learned.

The Random Lake Conservation Fair will be May 18th, at the High School in Random Lake. Our club will again have a table there. It runs from 11 to 3, & has lots of displays & presentations. It is free & has a number of raffles. Here is the website for it.

Last month's presentation by Bob Kimball was very good & informative. He makes some great looking lures & shared information on the Eagle River chain.

Good luck this weekend. Be sure to get your new fishing license & put the plug in your boat.

Get your hooks sharpened,

Mike Scholler
